

Ranger Workshop - Leave No Trace

Event Date

Wed, Mar 27 2024, 5 - 6pm

Leave no trace, or LNT, are 7 principles that help us create a more sustainable outdoor environment for everyone to enjoy and learn from. During this program you will learn the 7 LNT principles and how to practice each principle when you are outdoors. You will get to make your own take-home LNT booklet to keep in your hiking bag, and practice sustainable ways to implement these principles in your everyday outdoor life through ethical thinking programs and fun games that will help you understand why these principles are so important to our ecosystems.

Grandfather Mountain State Park Ranger Amelia Gallina will be teaching this program in the Seven Devils Community Center.
